

VERTICAL EXPRESS

enviromax[®]

enviromax is the industry's first high-performing, vegetable based hydraulic fluid. It is formulated from canola oil, which is rapidly renewable, readily biodegradable, and has minimal effects on the environment. When tested at an independent laboratory for aquatic toxicity, the results were well above government standards. It is the only USDA (United States Department of Agriculture) certified biobased product.

- USDA BioPreferred with 92% Biobased Content
- 99% Petroleum Free
- 100% Recyclable
- Readily Biodegradable
- Rapidly Renewable
- Energy Conserving and Cost Saving
- Temperature Stable
- Made in U.S.A.
- Contains No Zinc
- High Lubricity and Viscosity
