Car Top Rail Kit

A safe service area.

Vertical Express' Car Top Rail Kit was designed to provide a safe working area on the elevator car top for service mechanics. The kit meets ASME A17.1-2000 Code, which requires special railing if there is more than 12" of space between the car and the adjacent hoistway wall.

Our car top rail kit, designed with heavy-duty Unistrut® modular components, includes all hardware and angle brackets needed for ease of installation.

Benefits:

- 42" high railing for code compliance
- A safer, more stable working platform
- Available in two sizes, easily adapting to most car configurations
- Expansion kits available for larger cars
- In-stock and ready for immediate shipment
