Spring Buffers

A safety net for elevators.

Vertical Express' Spring Buffers and Stands are designed and manufactured to meet your elevator's specific requirements for travel speeds up to 200fpm. If the capacity or speed of your elevators have recently been modernized, spring buffer replacement may be required. Replacement is also suggested if existing equipment is damaged due to corrosive pit conditions.

When you order parts from Vertical Express, you can rest assured that you have a product that has been designed for superior operation and safety.
